## Expanded Notation Method Practice

Expanded Notation Method  
for division

$$\begin{array}{r} 3 \\ 20 \\ 100 \\ \hline 6 \overline{) 738} \\ \underline{-600} \\ 138 \\ \underline{-126} \\ 18 \\ \underline{-18} \\ 0 \end{array} \quad \boxed{123}$$

**Directions:** Use the expanded notation method to solve each of the following problems. Check division solution using a multiplication strategy.

1. The small road leading to Mikayla's house is 414 square yards. The road is 9 yards wide. How long is the road?

2. William mowed lawns for 8 days. He was paid a total of \$608. How much was he paid each day?
