Methods of Division HW

Directions: Solve each division problem using a rectangular array/area model AND/OR the expanded notation method.

1. There are 252 pages in a book. Jessica read 7 pages in one hour. How many hours did she take to finish reading the book?

2. Gina earned \$475 in 5 weeks. How much did she earn each week?

3. James has a collection of 544 large stamps that he would like to organize into an album. Each page of the album can hold 8 large stamps. How many pages does James need for his collection?

4. A class was collecting canned goods for a local food drive. They collected 774 cans. When distributing canned goods, the food drive gives 9 cans per family. How many families can benefit from the cans this class collected?
